Archery equipment will be provided.

Limited spot available.

Please pre-register 1 week before the intended date of attendance.

#### INTRODUCTION TO ARCHERY

We would like to offer those who have never shot a bow, or those with some previous experience that are seeking a refresher session a place to start.

The Beginner Archery series of classes, concentrates on range rules, safety rules and fundamentals of archery, and is taught using recurve equipment.

The Archery class will include the following:

Archery safety rules

Follow such basic safety guidelines as proper handling of equipment, shooting line conduct, target conduct, and equipment condition.

Know the parts of the bow and arrow.

Be familiar with the purpose and proper use of such accessories as finger tabs, arm guards and quivers.

Eye Dominance determined

The process or steps in executing the sport of archery.

Archery is safe, fun and easy to learn. It is a discipline suitable for all ages, sexes and abilities. The programs are structured to teach the basics of Archery to 8 years old and above who are. This is a lifetime sport, suitable for the entire family.

We also offer experience and those with previous experience from school and club programs, a source to advance their skills with additional guidance.

We recommend that you do not purchase equipment until the student has been assessed for eye dominance and has been shooting for a while. Students will be able to gain strength and will need longer arrows as they practice and stretch out. We can advise on equipment at that time. Once the fundamentals have been learned, the student may also participate in intermediate Classes.
