

Oranco Bowmen Archery Club

Junior Field Archers

Introduction to Field Archery

I think we can all agree that the education of our youth archers is imperative to the continuation of our sport. There are JOAD programs available to our youth archers and indoor ranges for them to practice their skills and now it is our turn...Oranco Bowmen is stepping up with our Junior Field Archers program.

What we will be doing:

The OBJFA will meet on the first Sunday of every month (schedule permitting) at 9 am, we will be shooting either a Field, Hunter or Animal round (14 targets) and teaching the Youth Archers how to properly shoot and score the round according to NFAA rules and we will have experienced chaperones available to assist the archers.

In addition, we will be introducing our Youth Archers to shooting and scoring 3-D targets to prepare them for tournaments involving 3-Ds.

The cost is our Clubs normal Sunday shooting fees for Youth and Young Adult Archers (\$20) and free for archers 11 and under. Oranco club members are free.

Archers must have their own equipment.

This is not a beginners archery class. Archers must be able to hit the target at 30 yards

Parent or Guardian must be present during the class.

Adult Archers are welcome to join our group.
